

In the Name of Allah

Undoubtedly, the awakening and insight of Islamic nations in these days have based on the Holy Quran and the Holy Prophet's (PBUH) teachings.

The load cry of the oppressed people in some of the Middle East and the Islamic world's sates such as Libya, is promising the expansion of confrontation against oppressive culture of Zionism and the decisive resolution of Muslims to cut off the hands of Great Satan, United States of America.

The Islamic awakening among the Libyan people indicates that the nation attempts to get rid of humiliation, oppression and darkness and intends to avoid the evil plans of the West.

The brutal attacks and the barbaric repression by the Libyan government and opening fire on the defenseless people, represents the flurry and atrocity of these oppressive dictators.

It is an undeniable sign for the upcoming downfall of the cruel regime. The negligence of the oppressed people's voice results in the collapse of the charming crown.

The Libyan governments should not commit more crimes against the innocent people and should let them to reach their rights.

As the mighty God has promised, the honorable brothers and sisters in Libya will achieve a deep vision and insight by humility and trust in the Lord and maintaining their unity and brotherhood and their abilities will sharply increase to stand against the oppressors and arrogant super powers.

Their pure bloods will result in divine blessing and their revolution will be followed by formation of an Islamic government.

The Muslim people should have enough insight and vision and act in line with their divine assignments.

They should care of the internal unity and avoid the tyrants such as the America and Israel, and protect their valuable revolution and its exuberant achievements.

The Arrogant and devouring demons should know that today the Muslim nations show the way of resistance to each other. The Muslim nations are expanding the culture of anti-Semitism to spread the Islamic liberation all over the world and all the poor and oppressed people hear the voice. (Insha Allah)
